

2011 Census release: Ward profile

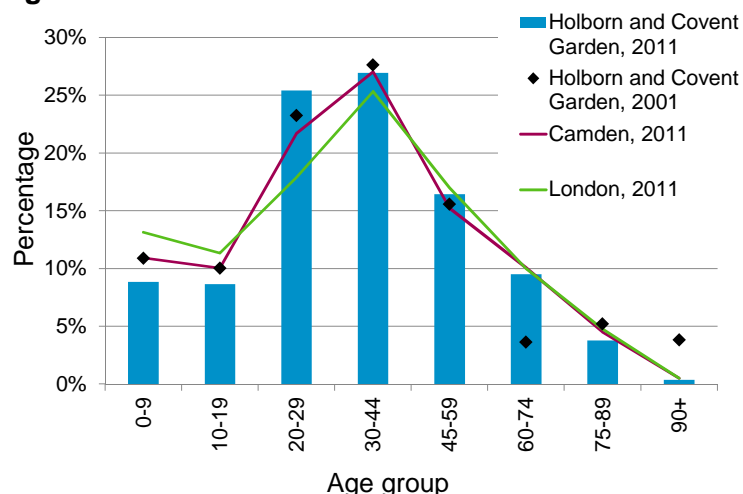

E05000138 Holborn and Covent Garden

March 2013

This profile provides information on key demographics, health care, household and employment status for this ward primarily based on the 2011 Census data. It shows both the differences between the Camden average and the ward, and where available, between the 2001 and 2011 Census figures. All data for 2011 were published by the Office for National Statistics (ONS) in January 2013. All data are available at www.ons.gov.uk. Unless otherwise stated, data are for 2011.

DEMOGRAPHICS

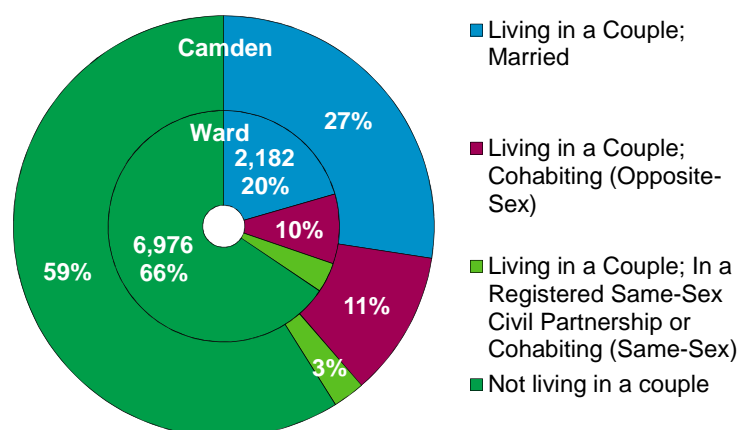

Age structure

In 2011 there were a total of 13,023 residents in Holborn and Covent Garden, compared to 10,645 in 2001.

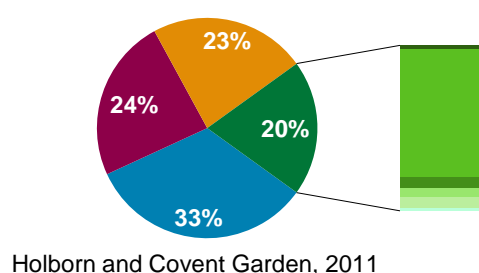

The 60-74 years age group saw the largest increase from 2001 (from 4% to 10%).

Marital and Civil Partnership status

In 2011, 66% of residents in Holborn and Covent Garden were recorded as not living in a couple. This is higher than Camden (59%) and is an increase from the ward's percentage in 2001 (65%).

Religion

Holborn and Covent Garden, 2011

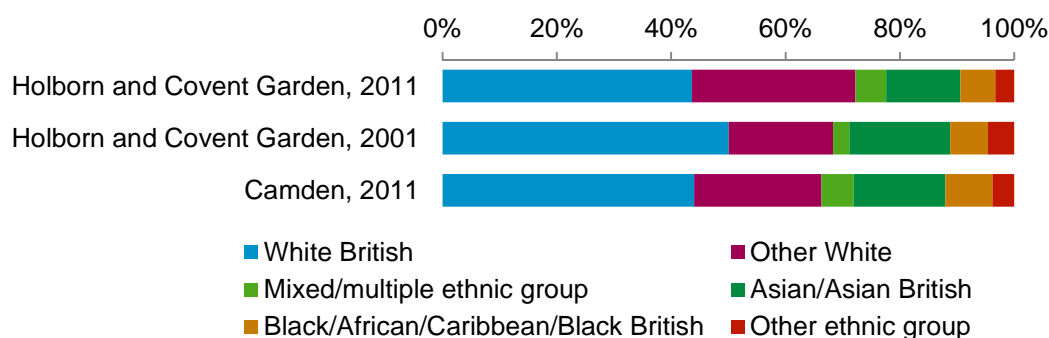

Holborn and Covent Garden, 2001

The percentage of people with no religion in Holborn and Covent Garden has increased from 19% to 24% since 2001, and is the same as in Camden (24%).

Ethnicity and Language

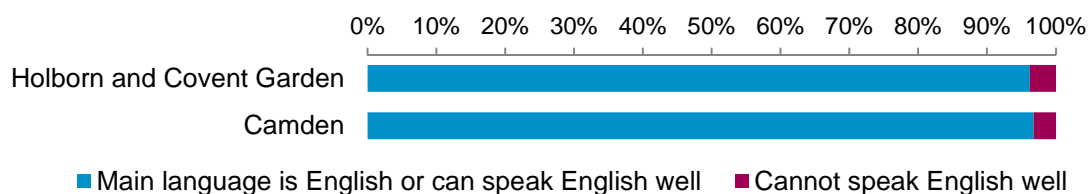

Ethnic Group

In 2011, 44% of people in Holborn and Covent Garden were White British, followed by Other White, which represents 29% of the ward population.

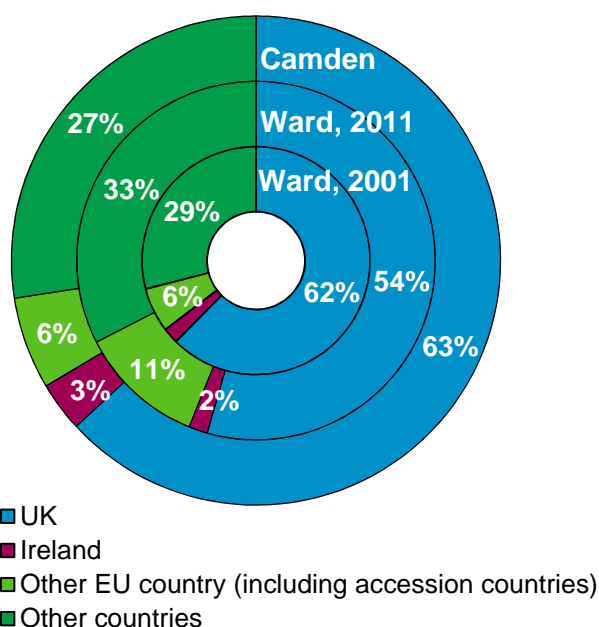

Proficiency in English

In 2011, 481 (4%) of people could not speak English or not speak English very well. This percentage is higher than in Camden overall (3%).

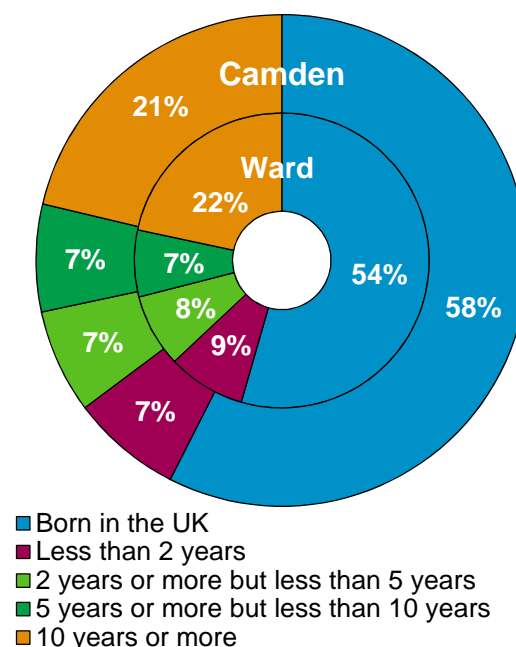

Country of birth and residency

Country of Birth

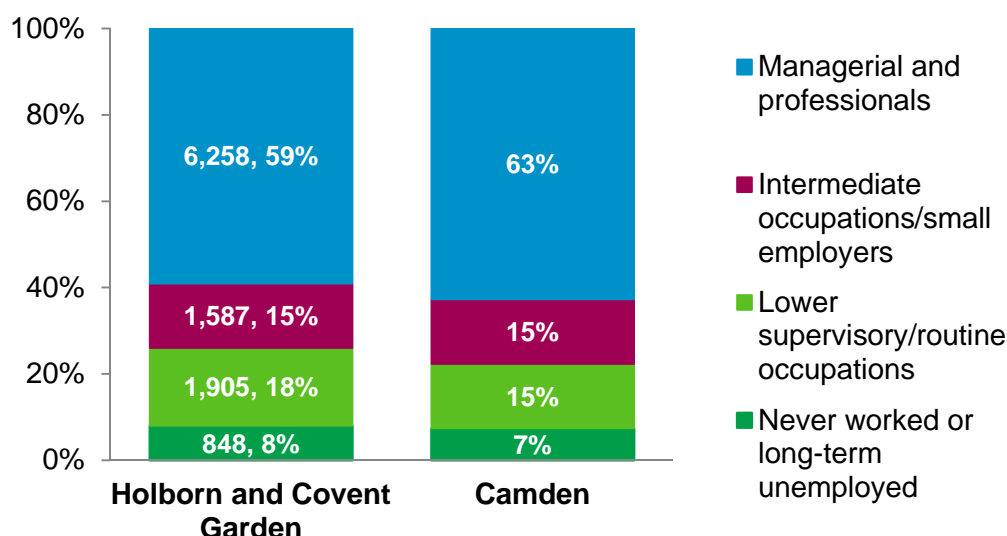

Length of UK residency

The percentage of residents in Holborn and Covent Garden that were born in the UK decreased from 62% in 2001 to 54% in 2011. The percentage of people born in EU countries (including the most recent accession countries) other than the UK and Ireland has increased from 6% in 2001 to 11% in 2011. The percentage of residents in Holborn and Covent Garden who were not born in the UK but have lived in the country for ten years or more is higher in Holborn and Covent Garden (22%) than in Camden (21%).

LABOUR MARKET

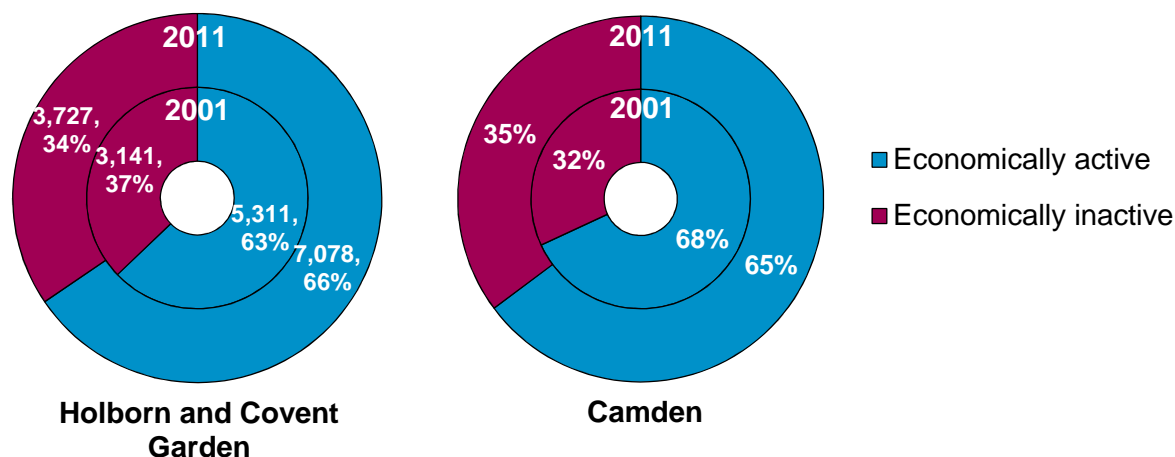

Employment by socio-economic group (NS-SEC)

In 2011, 848 residents in Holborn and Covent Garden were long-term unemployed or had never worked, which represents 8% of the ward population (compared to 7% in Camden).

Note: The working age population size does not exactly equal the sum of the individual categories due to rounding.

Economically inactive* working age population (16-74)

In 2011, there were 3,727 (34%) economically inactive residents* in Holborn and Covent Garden, of whom 546 (15%) were long-term sick or disabled (14% in Camden).

* Not in work and not actively seeking work.

Education and qualifications

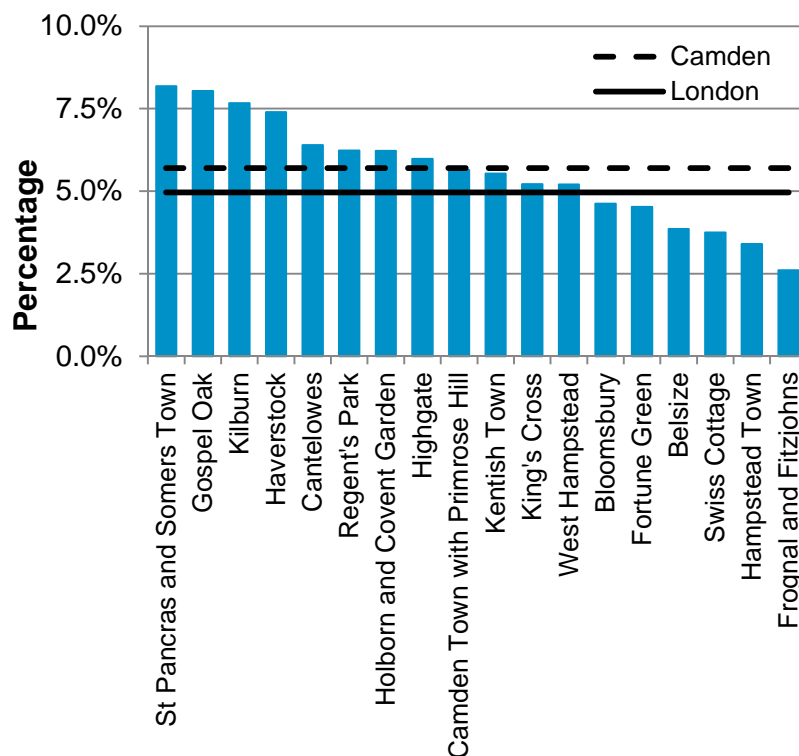

In 2011, Holborn and Covent Garden had a higher percentage of residents aged 16 or over with no qualifications than Camden, and a higher percentage of residents aged 16 or over with a degree level qualification than Camden.

| Ward | No qualification | | Degree level | |
|---------------------------|------------------|--------------|--------------|--------------|
| | 2001 | 2011 | 2001 | 2011 |
| Holborn and Covent Garden | 1,697 (20%) | 1,468 (15%) | 3,711 (44%) | 5,248 (46%) |
| Camden | 26,935 (17%) | 23,451 (11%) | 72,945 (47%) | 93,453 (42%) |

Note: 2001 Census reported data for 16-74 year olds, and 2011 Census reported for all residents aged 16 or over, so figures aren't directly comparable.

HEALTH AND THE PROVISION OF UNPAID CARE

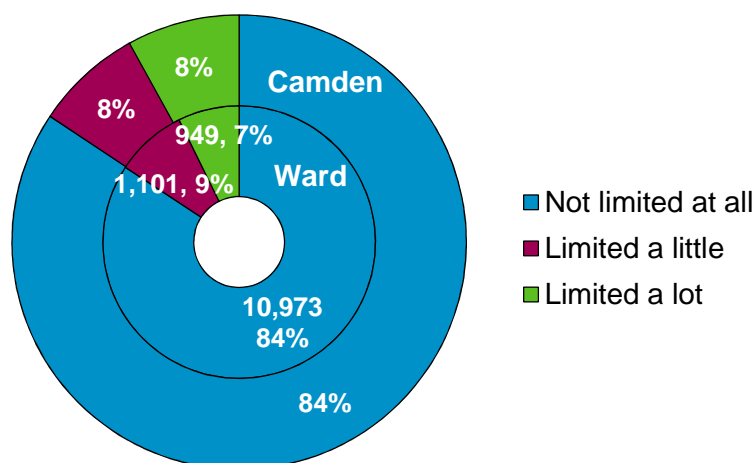

Percentage of residents who rated their health as bad or very bad, Camden wards compared with Camden and London averages, 2011

6% of Holborn and Covent Garden residents rated their health as 'bad' or 'very bad' in 2011, which was equal to Camden (6%). In 2001, 11% of Holborn and Covent Garden residents rated their health as 'not good'.

83% of Holborn and Covent Garden residents rated their health as 'good' or 'very good', which was lower than the Camden average (84%). 10% of Holborn and Covent Garden residents rated their health as fair.

Residents who feel that they are limited by their health in their daily lives, Holborn and Covent Garden compared with Camden.

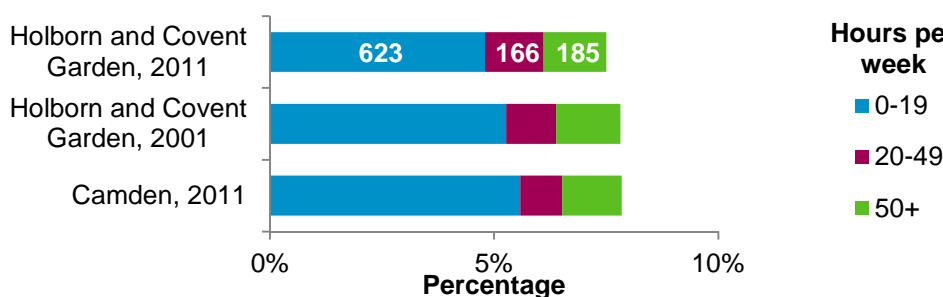

7%

of Holborn and Covent Garden residents felt that they were limited a lot in their daily lives, compared to 8% in Camden.

Note: The question from 2001 is not directly comparable with the 2011 question. In 2001, 18% of residents felt that they had a limiting long-term condition.

Percentage of residents providing unpaid care, by number of hours per week, Holborn and Covent Garden 2011 and 2001 and Camden 2011

Hours per week

0-19

20-49

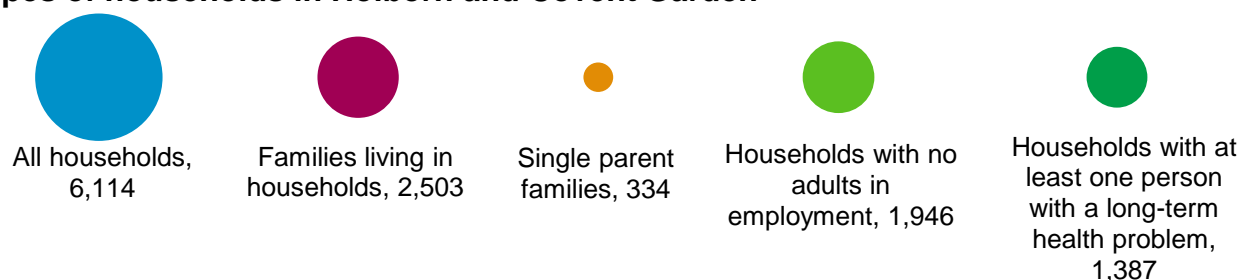

50+

7%

of Holborn and Covent Garden residents provided unpaid care at least once a week, the same percentage as 2001.
