

Residents' Surveys

Introduction

Camden regularly carries out residents' surveys that track local people's perceptions and views on a wide range of issues. This covers a variety of areas including residents':

- overall satisfaction with the council and their views about the way we runs things including whether we provide value for money and act on residents' concerns
- thoughts on what we are doing well and could improve on
- satisfaction with their local area, including how safe they feel when they are out and whether they are proud of their local area
- views on the current economic situation including barriers to employment and financial concerns

Links to analyses and data

Further up-to-date analyses to be added, including summaries of the quarterly tracking surveys and full data for further analysis.
